

NOTICE

In response to vacant seat matrix displayed on your website as well as our college website, unexpectedly large number of emails have been received in our inbox since last night only, around 500 emails have been received.

Downloading all email attachments and entering the data was already going on at multiple places. Even then checking the inbox thoroughly and including all applications received before 1 pm. today is a huge task. As the admission process is sensitive issue, utmost precautions are being taken so that all the emails should be considered.

This work of downloading and tabulating the data and preparing the list is taking more time. Hence we request you to consider this fact. The selection list and wait list will be displayed as early as possible.

V. Kumbale
