REPORT OF ANUBANDH FOR 2020 BATCH I MBBS STUDENTS

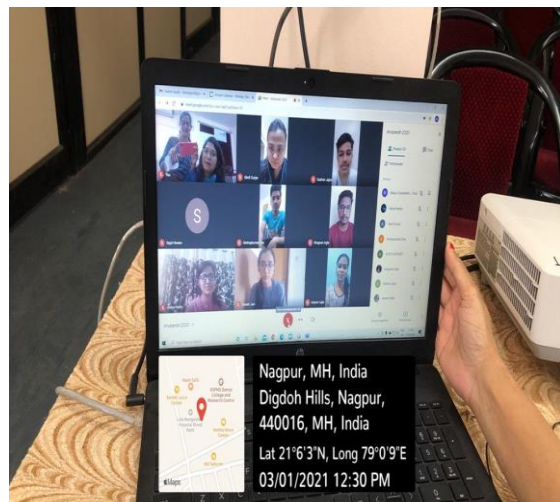

First session of Anubandh was conducted on the theme of “पढाई और कडाई” on 1st March at 12.15 pm on online platform. Total 13 groups of First year students (2020 batch) were mentored by 13 teachers from preclinical department along with two student mentors of 2019 batch.

All teacher mentors were briefed about conduct of Anubandh by Dr. Suresh Chari, Dr. Madhur Gupta, Dr. Anne Wilkinson & Dr. Smita Pakhmode.

All students in the 13 groups were satisfied with sharing academic problems and asking questions regarding academics and sensitization about COVID 19 precautions. Students show preference for onsite session and showed enthusiasm to attend e-anubandh session further.

Teachers were also satisfied to interact with students. Students and teachers reflections were collected through google form.

Dr. Smita Pakhmode was the coordinator for all the sessions.

PANEL DISCUSSION HELD ON 5TH MARCH 2021 on COVID VACCINES

COVID-19 is a virus which has spread quickly to many countries. Scientists and researchers have managed to produce vaccines to protect against COVID-19. Misinformation and myths have been spreading fast regarding the vaccine and hence to sensitise the students an online panel discussion using Microsoft Team was organized on : Covid Vaccine “Myths and Challenges” for first year MBBS students 2020 Batch as a part of foundation course.

The panellists were Dr. Ajeet Saoji, Professor and Head Community Medicine; Dr. Sunanda Chaoji, Associate Professor General Medicine and Dr. Umesh Hassani, Assistant Professor Microbiology respectively. The session was moderated by Dr. Kalpana Date, Associate Professor Department of Microbiology. Queries regarding types of vaccines, their mechanism of action, efficacy of vaccines, side effects and herd immunity were answered. Coordinator of the event was Dr. Manju Chandankhede from Biochemistry Department.
